

Doris Gangl

◊ PhD student at:

• University of Kent, UK

Nationality:

Austrian

Main supervisor:

Prof. Colin Robinson

◊ Educational background:

• B.Sc. in Molecular Biology, University of Vienna

• M.Sc. in Molecular Biology, University of Vienna

◊ Research and work experience:

• M.Sc. thesis: Targeting of CDKs operating in G1 phase to synergize with the anti-proliferative action of NSC348884, a nucleophosmin inhibitor, in human MCF-7 breast cancer cells.

• Research Project (2011/2012): Max F. Perutz Laboratories (MFPL) Vienna: Picornaviral 2C Proteins

• Research Project (2011): Institute of Cancer Research, Vienna: CDK Inhibitors in Breast Cancer

• Research Project (2011): University of Warwick: Gram Positive Tat System

• Erasmus Study Placement (2010/2011): University of Warwick, UK

◊ Personal interests / hobbies:

• Gymnastics, skiing, reading and travelling

Funded by the European Union
